This procedure is to provide the System Office and the technical colleges a guideline for asset and inventory management. All levels of management who are responsible for assets and inventory should ensure all users within their area of responsibility are aware of responsibilities as defined in the policy 4-5-101 and this procedure.

**Asset and Inventory Management System:**
All equipment, supplies, capital assets and non-capital assets which meet the thresholds as found in Policy 4-5-101, regardless of source of funds, must be accounted for and tracked through an Asset and Inventory Management System. The System Office must use the South Carolina Enterprise Information System (SCEIS) for its Asset and Inventory Management System. It is the responsibility of each individual college to have an Asset and Inventory Management System that tracks and accounts for all assets and inventory in place.

**Tracking and Tagging of Inventory:**
All equipment, supplies, capital assets and non-capital assets which meet the thresholds as found in Policy 4-5-101 should be tagged and tracked with a decal which contains a bar code identification number. If a decal cannot be attached, write and/or etch the decal number on the equipment with a permanent marker or appropriate tool. The decal must be maintained in the permanent equipment file with a notation as to why it could not be applied to the equipment.

It is the responsibility of each individual college to order decals for their respective colleges. For consistency purposes, the decal should be similar to the decal found in Appendix A.

**Annual Physical Inventory Review:**
Prior to the end of the fiscal year, a 100% physical inventory review must be completed for equipment valued over $5,000 and a minimum of 10% physical inventory review must be completed for equipment valued at $2,500 or greater and up to $5,000. Both physical inventory reviews should list and document the location of all equipment. The result of each review should be maintained in the asset and inventory files.
Depreciation:
Assets shall be recorded and depreciated in accordance with GASB 34 and State of South Carolina Office of the Comptroller General’s Policies and Procedures. Depreciation schedules can be found in Appendix B.

Disposition of Equipment and Supplies:
It is the responsibility of the System Office and the individual colleges to work with the State Property Management Office (SPMO), respectively, on disposition of equipment and supplies.

Pursuant to Procurement Regulations 19 445.2150, surplus property is defined as State owned supplies and equipment, not in actual public use, with remaining useful life and available for disposal. The definition excludes the disposal of solid and hazardous wastes as defined by any federal, state or local statutes and regulations. Property so defined as solid or hazardous waste shall not be relocated, nor title assumed under the authority of these regulations.

General guidelines for final disposition can be found in Appendix C.

A TID form, approved by the System President or College’s Presidents, respectively, or their designee, is submitted to the SPMO for all State-owned property. Upon receipt of the TID, the SPMO will screen the property to determine if it is surplus or junk.

If it is determined that equipment fit the definition of surplus, SPMO will schedule a pick up date for the items. At such time as property is officially received by the SPMO, title will pass to the General Services’ Division. Revenue from Sale of Assets will be sent to the System Office or respective college.

See Appendix C for the disposition of junk.

Guidelines for Motor Vehicle Processing:
The System Office and each college, respectively, should coordinate final disposition and acquisition of vehicles directly with State Fleet Management. Procedures for adding, deleting, and/or replacing vehicles from inventory are located on State Fleet Management’s website at [http://www.admin.sc.gov/stateagencissupportservices/state-fleet-management/delivery-disposal](http://www.admin.sc.gov/stateagencissupportservices/state-fleet-management/delivery-disposal).

Sources for useful lives include the American Hospital Association's Estimated Useful Lives of Depreciable Hospital Assets, Revised 1998 Edition; the Internal Revenue Service's Publication 946, How to Depreciate Property; and professional judgment.
Appendix C:

Guidelines for Final Disposition:

A Turn in Document (TID) is used to report to the SPMO that property is no longer in use. This should be done within one hundred eighty (180) days.

A Report of Survey form may be used for documentation by the colleges for changes in assets and inventory and is referenced in the guidelines below. Each college has the flexibility to utilize any documentation and/or forms as needed to ensure proper documentation of transactions that affect assets and inventory. The use of the Report of Survey form (Appendix D) is up to each college.

- **Equipment replaced by or returned to vendor.** Update the Asset and Inventory Management System with the serial number, model number, and/or useful life information when equipment is replaced. Equipment replaced should still retain the same decal number as the returned item. A Report of Survey form, or like form, may be used for documentation for equipment returned to vendor.
- **Equipment moved to a different location or transferred within Technical College System.** Change the location information in Asset and Inventory Management System. A Report of Survey form, or like form, may be used for documentation of transfers within Technical College System.
- **Equipment stolen.** An investigation should be conducted as deemed appropriate by the president or president’s designee. A Report of Survey form, or like form, may be used for documentation of stolen equipment along with a copy of the investigation report.
- **Equipment missing.** An investigation should be conducted as deemed appropriate by the president or the president’s designee. A Report of Survey form, or like form, may be used for documentation of missing equipment along with a copy of the investigation report.
- **Equipment cannibalized.** Equipment that is obsolete or inoperable may be cannibalized if the parts can be used to repair or rebuild other equipment. Remove the equipment from the Asset and Inventory Management System. A Report of Survey form, or like form, may be used for documentation of cannibalized equipment. Cannibalization of federal equipment requires written approval from the appropriate agency.
- **Equipment purchased by retiree.** A retiring employee can purchase one item of equipment valued less than $5,000 that was assigned to and used by the employee while in State service. Complete a TID form and forward to Surplus Property Management Office (SPMO). See the SPMO User Guide for additional required procedures.
- **Equipment transferred or donated to other state or other governmental entities.** Complete a TID form and forward to SPMO for approval.
- **Equipment traded-in.** A Report of Survey form, or like form, may be used for documentation equipment trade-in for equipment less than $5,000. A TID must be completed for equipment trade-in for equipment
greater than $4,999.99 and forward to SPMO for approval of non-IT related equipment and forwarded to State Procurement Office for approval of IT related equipment.

- **Disposal of Computers and other IT related equipment.** Disposal of computers and other devices with memory storage capability (smart phones, copies, etc.) should have storage mediums erased or rendered unreadable before transferring to SPMO. A Computer Certification Sanitation Letter should be attached to the corresponding disposition form.

- **Disposal of Donated Assets or Inventory.** Some agreements require the donated property to be destroyed after the college determines the equipment is deemed no longer usable. In these cases, a Report of Survey form, or like form, may be used for documentation of the disposal.

- **Junk.** Classification of property as junk is at the sole discretion of the SPMO. Once the SPMO classifies property as junk, disposal is the responsibility of the System Office or college, respectively and should be done in accordance with Section 11-35-3850 of the Procurement Code.

- **Disposal of recyclable materials.** Complete a TID form and forward to SPMO for classification.
