All personnel employed by the South Carolina Technical College System (SCTCS) are considered State employees, and as such are subject to the rules and regulations of the Department of Administration’s Division of State Human Resources, and statewide policies and procedures of the State Board for Technical and Comprehensive Education. Employees are designated and referred to as either faculty, unclassified non-faculty personnel, institutional officers, or classified employees.

Positions fall into three (3) categories. These three categories are full-time equivalent (FTE), temporary and temporary grant/time limited. An employee may not occupy more than one FTE position.

1. **Full-time Equivalent (FTE)**
   FTE positions are established where there is a projected need for specific duties to be performed on an ongoing basis for a minimum of twelve (12) months.
2. **Temporary**  
Temporary positions are established to supplement FTE positions not to exceed a period of twelve (12) consecutive months.

3. **Temporary Grant/Time Limited**  
Temporary grant/time limited positions are established for a period of time, not to exceed the length of the grant/project that funds the position, to provide specific duties as defined in the grant/project. Temporary grant positions must be funded in full by approved grant funds and may include State dollars only if they are required as a match to a grant. Time limited positions may be funded by Federal, State or Other funds.

FTE, temporary and temporary grant/time limited positions may be established as full-time or part-time positions depending on the number of work hours required to perform the assigned duties. The minimum normal working hours of a full-time position is 37.5 hours per week. A normal workweek of less than 37.5 hours is considered part-time.

The following is a general outline of the hiring procedures to be used in the South Carolina Technical College System (SCTCS). System Office/Colleges may incorporate more detailed procedures to suit their individual needs.

A. **Establishing New Positions**

A Position Description (PD) describing the function and specific duties of the position and the minimum qualifications required to perform these duties must be developed. The supervisor for the proposed new position should write the position description and forward it to the human resource office for review and comment. After a review of the position description, the Human Resource Officer should identify the availability and source of funds for the position.

After gaining all System Office/College approvals, the human resource office will forward the position description to the System Office Human Resource Services Division for appropriate action. For all non-delegated classifications, the System Office Human Resource Services Division will review the position description and forward it to the Division of State Human Resources (DSHR) for establishment. Each position with a non-delegated classification shall be classified by DSHR before any action is taken to fill the position. Positions having a delegated classification shall be submitted to the System
Office Human Resource Services Division for classification before any action is taken to fill the position.

B. Vacant Positions

When an existing position is vacated, the human resource office will furnish the supervisor a copy of the current position description for review and update if necessary. If the position description accurately reflects the duties and responsibilities of the position, the System Office/College may begin the recruitment process. If the duties and responsibilities have changed, it will be necessary to update the position description. The supervisor will submit the updated position description to the Human Resource Officer for appropriate processing. When the update process is completed, the recruitment process may begin.

C. Recruitment Process

Using the position description as a guide, the recruitment process should not begin until such time as the human resource office completes an announcement for the vacant position. An announcement for the vacant position should be created using the PD as a guide. The announcement should be posted in predominant places at the System Office/College and also sent to all other Colleges/System Office Human Resource Services Division for posting. To ensure an effective affirmative action program, the announcement may be sent to various recruitment sources, including predominantly minority and female colleges/universities as well as those with diverse student enrollments and alumni, State Employment Offices, Division of State Human Resources Recruitment Unit, and any other recruiting sources available to meet the needs of the System Office/College.

If the initial number of applicants does not provide an adequate minority or female representation and the position is in a race/sex group that has an underutilization, it is recommended that, if possible, the closing date be extended. During this period, the human resource office is encouraged to solicit additional assistance in the recruiting effort for the underutilized race/sex group.

All applicants will be required to complete the South Carolina Government Application or the local college's application form and furnish transcripts and/or resume as deemed
necessary for the particular position. Transcripts documenting particular post-secondary courses are required for faculty positions.

D. Interview Process

The human resource office should review all applications to determine which applicants possess the minimum qualifications for the position. Those not possessing the minimum qualifications should be notified by the human resource office. Colleges may develop an interview process best suited to meet their organizational needs, but should rely upon the human resource office throughout the process for advice on policy and procedure and compliance with the System Office’s/College’s Affirmative Action Plan.

In extenuating circumstances, such as when there are insufficient applicants for a position, the College President may make an exception to the SBTCE and/or state’s minimum requirements. The System President may make an exception to the SBTCE minimum requirements however, if the System Office feels that an exception to the State’s minimum training and experience is warranted, a request must be made to the Division of State Human Resources for an equivalency approval. The Division of State Human Resources Director must approve such equivalency prior to the consideration of any such applicant.

The supervisor should be involved in the interview and selection process whether this is accomplished through a private interview and recommendations approach or through the use of a System Office/College selection interview committee. An approved interview form should be completed by the official(s) participating in the interview process.

E. Selection and Recommendation for Hire

The Human Resource Officer, supervisor, or selection interview committee should summarize interview records of all candidates and prepare a recommendation for hiring the selected candidate(s). System Office/Colleges may require a final interview with an Executive Officer before the hiring decision is made. The Human Resource Officer should be involved in the decision making process to ensure that no grounds for discrimination exist.
The human resource office should conduct the criminal background checks and reference checks may be completed by the supervisor or the human resource office as requested. These should be completed using an HR approved form.

In selecting candidates for employment, the System Office/College must always be cognizant of commitments made in their Affirmative Action Plan. All persons in positions with hiring authority and those with input into the selection process should be made aware of the System Office/College affirmative action commitments. In keeping with commitments made in the Affirmative Action Plan, the gender and race statistical balance of the System Office/College and/or the particular department or section in which a vacancy is to be filled should be a primary consideration in the selection process.

The human resource office should give notice to all unsuccessful applicants. Those not selected should be notified and how they should go about applying for any future vacancies.

F. Appointment

After the initial base salary is agreed upon, the successful candidate should be notified, and a beginning job date established. The human resource office should prepare the applicable employment agreement and schedule an orientation with the selected candidate. An I-9 Form must be completed and processed through E-Verify within three (3) business days of the employee’s hire date. Non-compete agreements may be required under certain circumstances.

G. Release of Information

The System Office/College may, but is not required to, exempt from disclosure all materials, regardless of form, gathered during a search to fill an employment position, except that materials relating to the final pool of applicants under consideration comprised of at least three people for a position must be made available for public inspection and copying. In addition to making available for public inspection and copying the materials described in this item, the System Office/College must disclose, upon request, the number of applicants considered for a position. For the purpose of this
item, materials relating to the final pool of applicants comprised of at least three people, do not include an applicant’s income tax returns, medical records, social security number, or information otherwise exempt from disclosure by §30-4-40 of the South Carolina Code of Laws.
